Aspire Community Care bed	15Jan18	It is only 15 months old and is like new. It has all the features needed, such as electronic controls for elevation, putting the head up, or just elevating the feet. It also has Side rails that can be up and locked in place if necessary. And has an overhang hoist grip to help with moving on the bed or getting on and off the bed. The mattress is one of those constant inflated mattresses (Air-Lo) that is controlled from a motor at the bottom of the bed. This helps with preventing bed sores, etc. and has worked wonderfully well for us.	\$2,750	\$4,024	Peter Neeson	0478 402 956 durban67@hotmail.com	BEECROFT

TWIN MOTOR ELECTRIC LIFT CHAIR	08Sep17	<ul style="list-style-type: none"> • Twin Motor-NOT single motor. The best available! • Steel Suspension • Lifetime (Dunlop) Seating Foam • Full Italian Leather: Plum Gloss (See images) <p>Made by "Proud Furniture" in Sydney. The two motors enable the footrest and the back to be moved separately unlike single motor models which work by raising the footrest at the same time the back reclines. The two motors are valuable where a person may be unable to lie back (possibly due to medical reasons) but still needs foot and leg support in this upright position. The chair reclines to a fully horizontal position for sleeping and has the lift function that tilts the sitter to an upright position to get out of the chair. It is on lockable wheels and is easily moved to the desired room position. It has battery backup in case of power failure. Bought for my Dad in 2015. He didn't use it, preferring the old lounge he has sat in for years – even though he should for medical reasons. The chair has been stored in a spare room with a cover and was used may be 5 times.</p>	\$1,500	\$2,500	Samira	0416 073 415	MERRYLANDS

Manual Wheelchairs							
The Karma VIP 515 Tilt in Space Wheelchair	18Aug17	<p>The Karma VIP 515 Tilt in Space Wheelchair is designed to enhance pressure distribution. This Tilt in Space Wheelchair utilises perfectly matched gas struts which provide an intelligent centre of gravity weight shifting seat, meaning users have a variety of Tilt in Space positions and angles. These changes in seating means pressure is released and the risk of bedsores is reduced.</p> <p>https://www.patienthandling.com.au/karma-vip-515-tilt-in-space-wheelchair/ Purchased new for \$2,000 2 years ago. Electric car seat	19May17	This seat is by Fadiel Italiana. It moves forward, turns just over 90 degrees, then moves the person out of the door opening at which time the seat can be moved up and down 400mm. All happens with the press of a button. Great for transfer to a wheelchair or for someone who's vehicle is just too high. Seat was installed in a Toyota Prado but would suit most larger 4 wheel drive type vehicles or a van with adequate door opening size. Install to another vehicle may require adaption of the base mounting plate. An auto-electrician can wire the seat without too much difficulty. Contact for more details and pictures. Will consider delivering within reason for cost of fuel. Cost new was ~\$8000 when installed in 2014.	\$3,000	\$8,000	Mark Forbes	0432 026 473	WHITEBRIDGE
