Endless possibilities for all

@Magic on Web

@Magic, our comprehensive Assistive Technology Database of products and resources, is available on our website www.at-aust.org

Ask about advanced features and multimedia

Infoline

Call us, fax, or email your enquiry. Our service is staffed by qualified personnel. Detailed information can be sent to you from our database of products and services.

Appointments

Contact us to make an appointment to receive information and advice from a therapist about assistive technology.

Group Tours

Arrange for a group to visit and have a guided tour of our product display.

Community Visits

Assistive Technology presentations can be provided to community groups.

Training

Workshops and educational seminars are available on assistive technology, communication and the built environment. Courses can be tailored to suit individual needs.

See our @Magic website for details of upcoming workshops.

Access

Our access consultancy provides a range of services to planners, designers, property owners and managers to ensure accessibility of homes, public buildings and facilities.

We can audit existing buildings and advise during the design, development and construction phases. We can assist you to develop policies and plans that relate to accessible design.

Publications

Our publications, available from our website or by request, include:

- **Buyers Guides** are guidelines about selecting Assistive Technology (AT) equipment for health professionals as well as for consumers and carers. (Free)
- **@ a Glance Guides** provide information to assist you in selecting assistive technology solutions that meet your needs They offer an introduction to different types of AT and factors to consider when choosing and using AT. (Free)
- **Helpful Handbook for Memory Loss** is intended as a reference for people in the early stages of memory loss as well as their family / friends. It contains information on products and devices as well as tips and hints for managing the effects of memory loss. (Free)
- **The 2015 Guide to Planning Bathrooms and Kitchens** gives basic advice on planning bathrooms and kitchens for people with specific needs, such as wheelchair users, people with vision impairment, people with chronic back pain, and children's needs. (Available for purchase on USB)
