

Seamless Living Home Automation

Course fee	\$450
Location:	Assistive Technology Blacktown
Duration:	9:30am – 4:00pm

Course Description

Seamless Living

– Using Smart Technologies in the home

Smart Technology can provide possibilities for independent living and social inclusion for people with disabilities and older Australians. Discover how smart technology can facilitate greater engagement and connectivity through exploring the options in a hands-on environment.

Learning Outcomes

On completion of the course participants will be able to:

- Apply smart technology concepts to enhance wellbeing, independence and social inclusion
- Identify Smart Technology options and their working principles
- Understand factors affecting implementation of Smart Technology
