About the Course

The **Home Modifications Course** training program covers the knowledge and skills needed to achieve the units of competency;

- CPPACC5016A - Provide expert access advice on renovations to private dwellings
- CPPACC4020A – Provide access advice on building renovations

These units form part of CPP50711 (Diploma of Access Consulting) and CPP40811 (Certificate IV in Access Consulting) respectively. Both units are nationally recognized and will provide you with future opportunities to complete Diploma or Cert IV level qualifications if you complete the assessment task.

‘Assessment is not compulsory’. You will receive a Certificate of Attendance if you choose not to complete the assessment. Should you complete the assessment you will be awarded a nationally recognized Statement of Attainment.

Program

Session 1: Understanding disability and the barriers within the home environment
Session 2: Assessing and specifying requirements for client’s needs

Who Should Attend

This training program aims to expand the knowledge of Allied Health Professionals, builders, building consultants and building designers to have the requisite skills and knowledge to create and modify existing private dwellings to suit the specific needs of the client, and where appropriate, family and/or carers.
Learn From the Experts

**Over a decade of experience and leadership,** Assistive Technology Australia (previously known as the Independent Living Centre NSW) has provided disability access advice to the industry for more than ten years and is a leader in this new and expanding field of expertise. Clients include major architecture firms and design and construct companies. Projects include major sporting venues, high-rise buildings, large-scale residential developments, open spaces, aged care and childcare facilities, and entertainment venues. Training staff have hands-on practical experience consulting on the interpretation of the BCA and Australian Standards for compliance with disability legislation, auditing drawings and buildings for compliance, including on SEPP (Seniors Living) developments, in Home Modifications and Assistive Technologies.

AT-AUST is a leader in its field. All trainers are qualified in their discipline. All staff employed to deliver training and conduct assessments meet the requirements for vocational training qualifications including WH&S, access and equity awareness and also have recent industry experience.

**Claim Formal Training Hours**

*AT Australia is a registered training organisation (RTO ID No. 90707)*

Assistive Technology Australia is a Registered Training Organisation under the Australian Quality Training Framework, and is registered by the Australian Skills Quality Authority to deliver training, conduct assessment and issue training qualifications. Members of the Master Builders Association of NSW and Building Designers Association of NSW who gain the Statement of Attainment should contact their Association for information on professional development benefits associated with this training.
