

Home Modifications Course

Dates	May 15 and 16, 2018
Course fee	\$890
Duration	2 days
Time	9:30am to 4:30pm
Venue	The Ville Resort-Casino Sir Leslie Thies Drive, Townsville, QLD 4810

About the Course

2 Units of Competency

The Home Modifications Course comprises of two units of competency:

- **CPPACC4020A** – Provide access advice on building renovations 
- **CPPACC5016A** – Provide expert access advice on renovations to private dwellings 

Both units are nationally recognised. CPPACC5016A forms part of the CPP50711 (Diploma of Access Consulting), and will provide you with future opportunities to complete Diploma level qualifications if you complete the assessment task. *Assessment is not compulsory.* You will receive a Certificate of Attendance if you choose not to complete the assessment. Should you complete the assessment you will be awarded a nationally recognised Statement of Attainment. Training package can be adapted to your specific availability but is generally carried out over two consecutive days. Support to complete the project and the assessment tasks will be provided throughout.

Program

Session 1: Understanding disability and the barriers within the home environment

Session 2: Assessing and specifying requirements for client's needs

Who Should Attend

This training program aims to expand the knowledge of Allied Health Professionals, builders, building consultants and building designers to have the requisite skills and knowledge to create and modify existing private dwellings to suit the specific needs of the client, and where appropriate, family and/or carers.

Learn From the Experts

Over a decade of experience and leadership, Assistive Technology Australia (previously known as the Independent Living Centre NSW) has provided disability access advice to the industry for more than ten years and is a leader in this new and expanding field of expertise. Clients include major architecture firms and design and construct companies. Projects include major sporting venues, high-rise buildings, large-scale residential developments, open spaces, aged care and childcare facilities, and entertainment venues. Training staff have hands-on practical experience consulting on the interpretation of the BCA and Australian Standards for compliance with disability legislation, auditing drawings and buildings for compliance, including on SEPP (Seniors Living) developments, in Home Modifications and Assistive Technologies.

Training Team

Meeting your needs

Jane Bryce began her career working for Guide Dogs, including being responsible for delivering training and developing resources. More recently Jane has been as the Access Consultant and Trainer at Assistive Technology Australia.

Queenie Tran (M. Architecture, UNSW) has been working in the design and construction field since 2007. Her extensive experience in architecture and access consultancy, offers a unique perspective on private residential design.

Esther Huber, an Assistive Technology Australia Occupational Therapist with many years expertise in matching AT (aids and equipment) with home modification together to meet a person's needs.

Ruwani Siriwardene, an Assistive Technology Australia Occupational Therapist providing advisory services matching assistive technology and built environment solutions for individual requirements. She has also completed further study in the area of access and environmental design for enhancing functional outcomes.

The team includes staff with relevant experience and guest presenters on specialised topics. Ongoing support will be provided to ensure the assessment tasks can be completed successfully.

Claim Formal Training Hours

AT Australia is a registered training organisation (RTO ID No. 90707)

Assistive Technology Australia is a Registered Training Organisation under the Australian Quality Training Framework, and is registered by the Australian Skills Quality Authority to deliver training, conduct assessment and issue training qualifications.
