

2020-2021 Training Calendar Other Courses

Assistive Technology Australia is a leading information, advisory, education and training centre for Assistive Technology and the Built Environment, operating across Australia. All trainers are qualified Health Professionals with extensive experience working in Assistive Technology and Access.

Assistive Technology Australia has developed a range of non-accredited courses to meet the specific needs of clients. We now offer these courses online where possible and provide the same great quality training and outcomes as we do in our face-to-face sessions.

These courses are offered all year round by expression of interest and are usually run with a minimum number of participants. Please email training@at-aust.org or call 99125800 about how these courses can be customised to meet the needs of your organisation.
