Preface **Language Learners with Special Needs** Judit Kormos,Edit H. Kontra,2008 This book provides an overview of topics related to the language learning processes of learners with special needs including students with learning disabilities as well as Deaf language learners and methods of teaching foreign languages to them The chapters written by authors in a wide variety of educational settings discuss individual learner characteristics and profiles diagnosis and assessment issues and instructional programs Finance and the Crusades Daniel Edwards,2021-11-09 This book investigates the financial aspects of crusading in the thirteenth and early fourteenth centuries Taking the kingdom of England as a case study it explores a variety of themes such as how much crusades cost how they were financed how funds were transferred to the East and how crusaders fared financially after their return Its fundamental argument in contrast with current historiography is that it was the private fundraising of individuals not the public fundraising of the Crown and the Church that constituted the life blood of the crusade movement in the period under consideration Indeed it is likely that the crusades were only able to remain central to the religious and political life of England and indeed western Christendom because participants and those in their connection continued to be willing to sacrifice their own financial wellbeing for the interests of the Holy Land
