Print News and Raise Hell Kenneth Joel Zogry, 2018-02-01. For over 125 years the Daily Tar Heel has chronicled life at the University of North Carolina at Chapel Hill and at times pushed and prodded the university community on issues of local state and national significance. Thousands of students have served on its staff many of whom have gone on to prominent careers in journalism and other influential fields. Print News and Raise Hell engagingly narrates the story of the newspaper's development and the contributions of many of the people associated with it. Kenneth Joel Zogry shows how the paper has wrestled over the years with challenges to academic freedom freedom of speech and freedom of the press while confronting issues such as the evolution of race gender and sexual equality on campus and long standing concerns about the role of major athletics at an institution of higher learning. The story of the paper the social media platform of its day uncovers many dramatic but perhaps forgotten events at UNC since the late nineteenth century and along with many photographs and cartoons not published for decades opens a fascinating window into Tar Heel history. Examining how the campus and the paper have dealt with many challenging issues for more than a century Zogry reveals the ways in which the history of the Daily Tar Heel is deeply intertwined with the past and present of the nation's oldest public university.

Print on Demand Book Publishing Morris Rosenthal, 2004. The basic business model of the book publishing industry remained largely unchanged between the Great Depression and the turn of the Millennium. Print a lot of books try to get them reviewed so that

stores would stock them on consignment advertise then hope that they don't come back as returns Small imprints and self publishers were reduced to begging distributors to accept their titles at discounts of 60% or more and were expected to accept returns in any condition and quantity Print on demand book publishing combined with short discount distribution and Internet marketing is turning the publishing business on its head For the first time authors are finding that they can launch their own publishing businesses and earn more from their writing than they would with a major trade publisher Small imprints can invest their scarce resources in acquiring designing and promoting new titles rather than gambling on tons of books that cost money to keep in inventory This book details the new method with which authors and publishers alike can use POD to cut costs and increase profits while reaching new readers through the magic of Internet marketing [Space Team](#)
