The Perkin Warbeck Conspiracy Ian Arthurson, 2009-10-04 Perkin Warbeck pretender to the English throne claimed to be Richard of Shrewsbury Duke of York Norfolk the younger of the two sons of Edward IV imprisoned in the Tower of London by Richard III and whose true fate is unknown to this day He led two attempts to claim the crown but was captured by Henry VII and hanged at Tyburn This book looks at who Warbeck really was how he was used by those in power in Burgundy France Italy Scotland and Ireland and the progress of the conspiracy itself It has often been considered to be a side issue to Henry's reign but this book reveals how close the conspirators came to bringing about a fundamental change in European politics Importantly Ian Arthurson not only sets the plot within the context of what was happening in fifteenth century Europe but also reveals important truths about Henry's reign in England Illustrated with a wealth of contemporary portraits paintings engravings and documents The Perkin Warbeck Conspiracy will appeal to anyone with an interest in fifteenth century history

Tracy, 2016-07-29 Distinguished scholar James D Tracy shows how the Ottoman advance across Europe stalled in the western Balkans where three great powers confronted one another in three adjoining provinces Habsburg Croatia Ottoman Bosnia and Venetian Dalmatia Until about 1580 Bosnia was a platform for Ottoman expansion and Croatia steadily lost territory while Venice focused on protecting the Dalmatian harbors vital for its trade with the Ottoman east But as Habsburg Austrian elites coalesced behind military reforms they stabilized Croatia's frontier while Bosnia shifted its attention to trade and Habsburg raiders crossing Dalmatia heightened tensions with Venice The period ended with a long inconclusive war between Habsburgs and Ottomans and a brief inconclusive war between Austria and Venice Based on rich primary research and a masterful synthesis of key studies this book is the first English language history of the early modern Western Balkans More broadly it brings out how the Ottomans

and their European rivals conducted their wars in fundamentally different ways A sultan's commands were not negotiable and Ottoman generals were held to a time tested strategy for conquest Habsburg sovereigns had to bargain with their elites and it took elaborate processes of consultation to rally provincial estates behind common goals In the end government by consensus was able to withstand government by command Calendar of the Manuscripts of the Dean and Chapter of Wells ...
